

Welcome

This site has been created to assist academic staff to develop their digital practice and support enhancements to the student digital learning experience. The information and case studies are grouped into 6 main themes which support the University of Derby's Digital Practice Programme Baselines: [Digital Course Material](#), [Inclusivity](#), [Assessment and Feedback](#), [Communication and Key Information](#), [Employability](#) and [Student Voice](#).

Digital Capabilities

[Digital capabilities](#) are the skills, knowledge and understanding which help us to live, learn and work in a digital society. They help us to use a variety of technologies, appropriately and effectively in different spaces, places and situations.

Get Started with Course Resources

[Course Resources](#) is the name we use for the University's virtual learning environment (VLE) and all its integrated systems. Our virtual learning

environment is Blackboard Learn and integrates with systems like Turnitin, Panopto and Pebblepad.

[Development and Training](#)

The Technology Enhanced Learning (TEL) team run [staff development events](#) for individuals, programme teams, subject teams and wider groups. We can also create bespoke sessions based on your requirements.

[Guides](#)

A [comprehensive range of help guides](#) and support resources are available for Course Resources and all University supported learning systems.
