

Jisc Digital Capability Discovery Tool

The [Jisc Discovery Tool](#) helps you to reflect on areas of your digital capability. After you complete a series of questions you will receive feedback, including a summary of your digital profile, suggested actions you can take to build your capability and links to resources that you can use to support your development.

Explore your digital capabilities

The tool is available to both staff and students as the University feels it is important for all people to develop the digital capabilities they need to live, learn and work in a digital society.

Accessing the Discovery Tool

To access the tool go to [Jisc Discovery Tool](#) and use your University username and password to login.

You can also access these helpful user guides for [students](#) and [staff](#).

Further information for staff

Make sure you explore some of the extra question sets as there are ones specially designed for:

- Looking at your overall capabilities
- Teaching in FE and Skills
- Teaching in HE
- Working in library or learning resources

Here Sarah Knight, Head of Change: Student Experience at JISC explains what the Jisc Discovery Tool is and how it can be used by staff at the University.
