

Getting Started

The TEL (Technology Enhanced Learning) department offers support and guidance to staff in the use of a wide

Technology Enhanced Learning

variety of technologies, ranging from video capture, multimedia and lecture recording, to e-assessment tools and collaboration.

This digital practice handbook is a place where we can consolidate our support and guidance for you to use and provide an easy to navigate environment to help answer your questions and queries quickly.

From the main menu we have categorised the information into sections that lead to further broken down information. You can also use the search function on the main menu to look for something specific.

In this Section:

- [Digital Capabilities](#)
- [Introduction to Course Resources](#)
- [Granulation](#)
- [Module Copy](#)
- [Sandbox](#)
- [Staff Development](#)
