

# Adding a link to PebblePad from Course resources

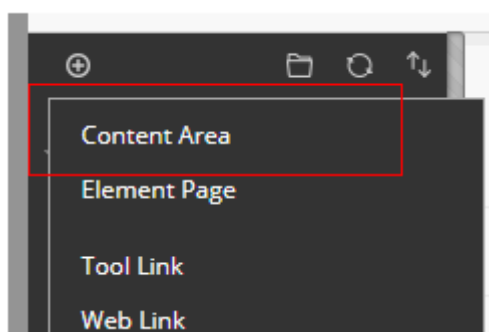

1 Log into Course Resources and the module you want a link to PebblePad from

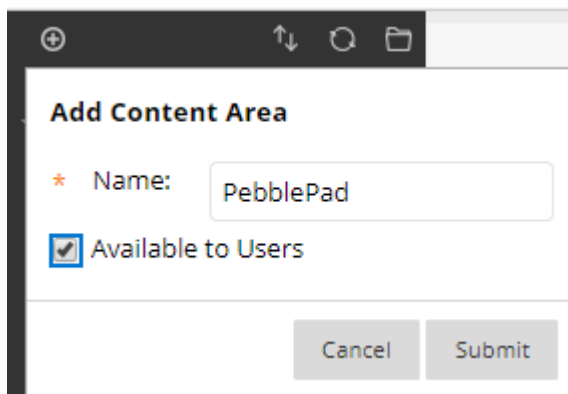

2 Create a new 'content area' by clicking on the small plus sign in the top left hand corner of your menu bar

3 Select "Content Area"

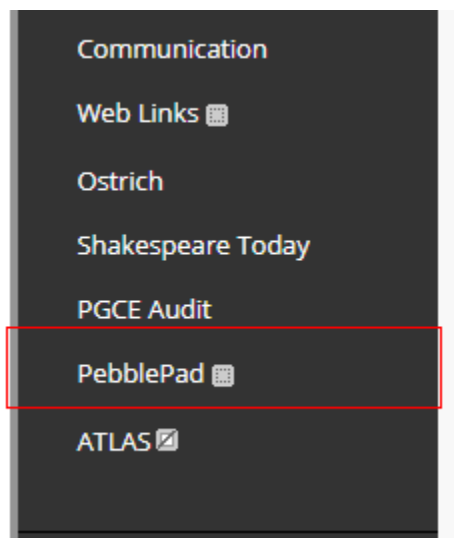

4 Name the content area 'Pebblepad' and make available to Users. Students will need to access this link.

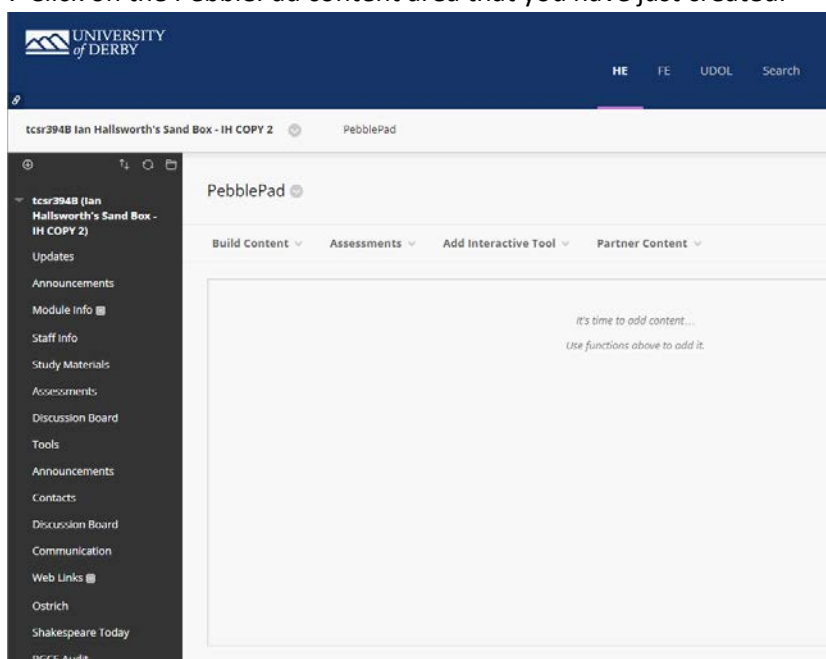

The screenshot shows a dialog box titled "Add Content Area". It has a dark header bar with icons for adding, undo, redo, and a folder. The main area contains a label "Name:" followed by a text input field containing "PebblePad". Below this is a checkbox labeled "Available to Users" which is checked. At the bottom are "Cancel" and "Submit" buttons.

5 Click 'Submit'

6 You'll now see the 'PebblePad' link on the left hand side menu.

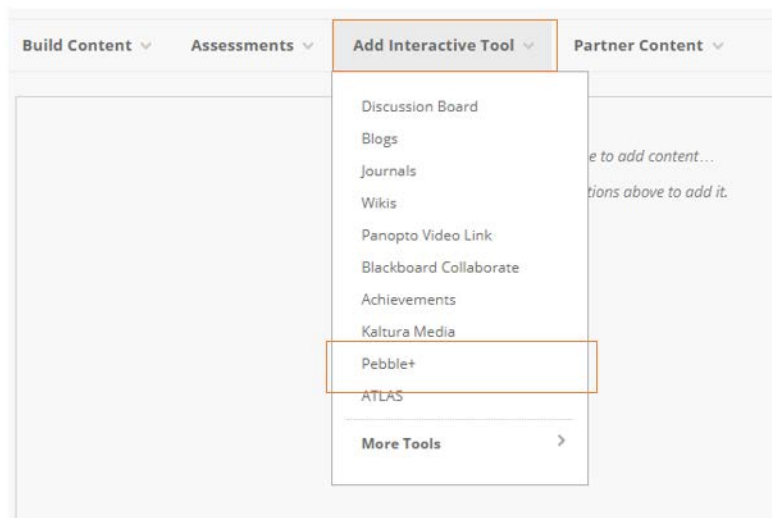

7 Click on the PebblePad content area that you have just created.

The screenshot shows a web application interface. At the top is a blue header with the "UNIVERSITY of DERBY" logo and navigation links: "HE", "FE", "UDOL", "Search", and "S". Below the header is a breadcrumb trail: "tcsr394B Ian Hallsworth's Sand Box - IH COPY 2" > "PebblePad". The main content area is titled "PebblePad" and has a sub-header with four tabs: "Build Content", "Assessments", "Add Interactive Tool", and "Partner Content". The main area is empty, with a message: "It's time to add content... Use functions above to add it."

8 From 'Add interactive tool' choose 'Pebble+'

9 A form will then appear. Enter **Pebblepad** as the name, then click 'submit'

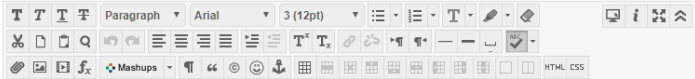

\* Indicates a required field. Indicates unsaved changes.

**TOOL INFORMATION**

Enter the details to appear on the content page for this link.

\* Name   
*Title of content item*

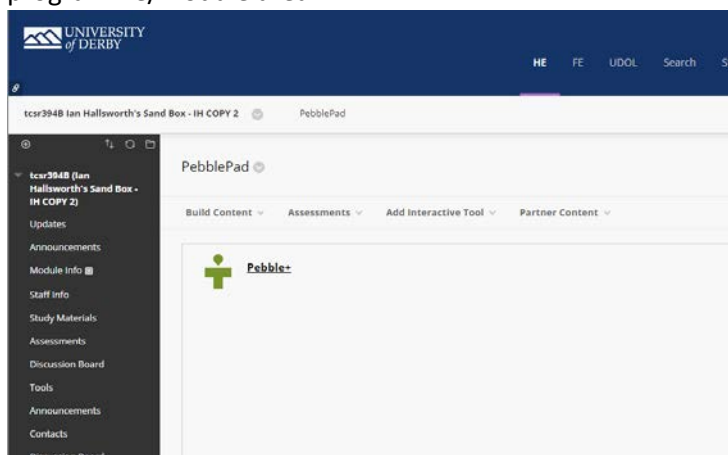

Description

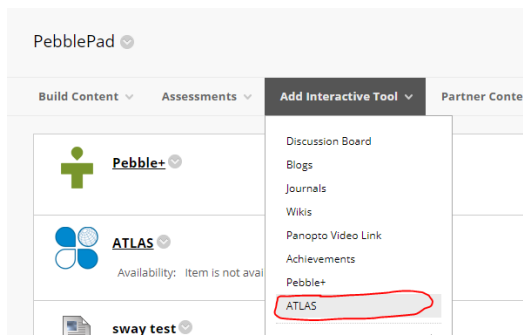

Path: p Words:0

*Description of content item*

10 You'll now see that you have set up a link to 'PebblePad' within your Course Resources programme/module area.

11 Add ATLAS in the same way as Pebble+ (above)

12 Enter **ATLAS** as the name.

**TOOL INFORMATION**
