Allow PowerPoint file download within a Panopto video
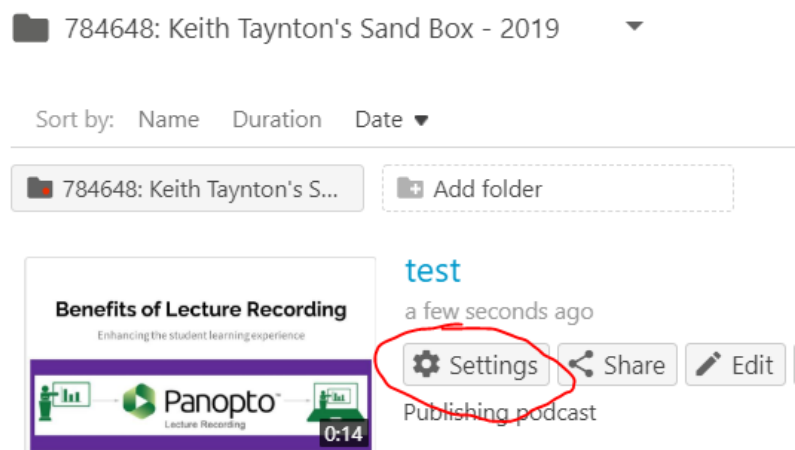

Staff guide

How to allow a viewer to download the PowerPoint file you used to create your Panopto recording with.

|	
1 Record your presentation as normal with a PowerPoint.	
2 Locate your recording (in the Course Resource's module lecture recording's folder, or in My Folder on Panopto website)	
3 Click on settings	
4 Click on Streams, then tick the Allow box in the Download area.	
5 Click the X to close the window.	

| 6 View the video.
A new link will appear which downloads the PowerPoint file. | |
