

Adding PebblePad help videos to your course

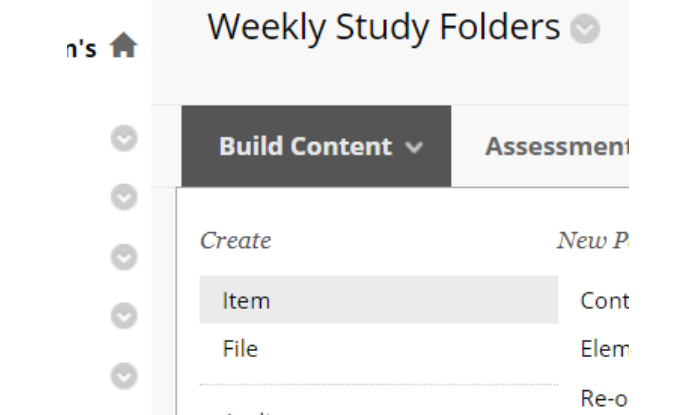

You should add PebblePad help videos to your modules or PebblePad portfolio so that students have easy access to these resources.

This guide explains how to

- Add a preset playlist of help videos from the shared repository to a Course Resources module page
- Add a single video from the shared repository to a Course Resources module page.
- Add a video from the shared repository in PebblePad

Add a preset playlist

There is a preset playlist covering the essential steps for using PebblePad that you can embed into a Course Resources page.

<p>1 Navigate to your Course Resources module, and the area you want to add the playlist to.</p> <p>For example this might be the assessments folder or the folder where your link to the PebblePad is.</p>	<p>https://courseresources.derby.ac.uk</p>
<p>2 Click on Build content > Item</p>	 A screenshot of the PebblePad interface. At the top, it says 'n's' with a home icon. Below that is a header 'Weekly Study Folders' with a dropdown arrow. A dark grey button labeled 'Build Content' with a dropdown arrow is highlighted. To its right is a button labeled 'Assessment'. Below the 'Build Content' button, a dropdown menu is open, showing options: 'Create', 'New P', 'Item' (highlighted), 'File', and 'Re-o'. The 'Item' option is highlighted with a grey background.

3 Enter a name (e.g. PebblePad help videos)

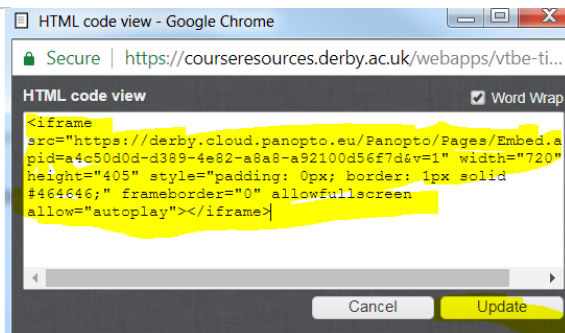

Click on the HTML button in the toolbar.

A new window will open.

4 Copy and paste this code into the pop up, then click update:

```
<iframe  
src="https://derby.cloud.panopto.eu/  
Panopto/Pages/Embed.aspx?pid=a4c5  
0d0d-d389-4e82-a8a8-  
a92100d56f7d&v=1" width="720"  
height="405" style="padding: 0px;  
border: 1px solid #464646;"  
frameborder="0" allowfullscreen  
allow="autoplay"></iframe>
```

5 The text box will have a yellow area in it. Click Submit to save.

ATTACHMENTS

6 The embedded video should now appear in the Course Resources page

Add a single video to a Course Resources page

You'll have to get a share link from the Shared Repository and add it as a weblink in Course Resources.

1 Navigate to the shared repository PebblePad help folder (link on the right).

You'll have to log in with your University username and password.

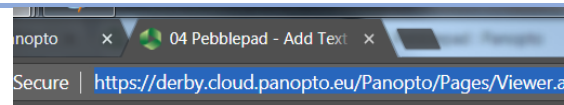

<https://derby.cloud.panopto.eu/Panopto/Pages/Sessions/List.aspx#folderID=%22d50bc3f8-8665-4237-8477-a900009e450b%22&sortColumn=0&sortAscending=true>

2 Click on the video you want to share. It will play.

Copy the URL from the browser address bar

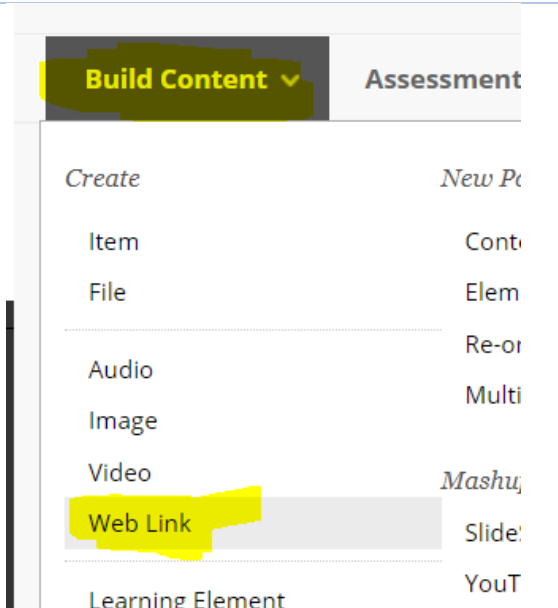

3 Navigate to your Course Resources module, and the area you want to add the playlist to.

For example this might be the assessments folder or the folder where your link to the PebblePad is.

<https://courseresources.derby.ac.uk>

4 Click on Build Content > Web link

5 Enter a name, and paste the URL into the URL box.

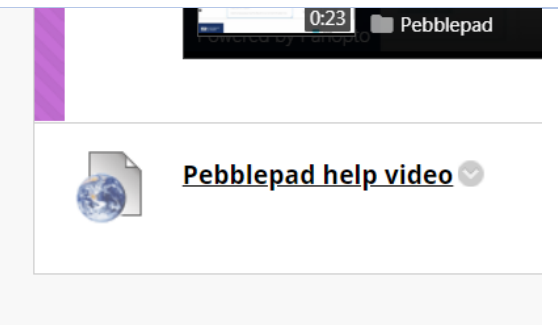

* Indicates a required field.

WEB LINK INFORMATION

* Name

* URL

6 Click submit to save.
The link will appear on the bottom of that page.

Add a single video to a PebblePad page

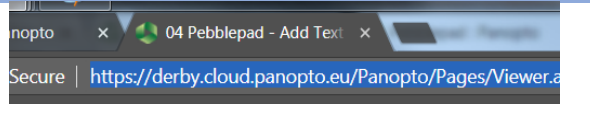

You'll have to get a share link from the Shared Repository and add it as an embed in PebblePad.

1 Navigate to the shared repository PebblePad help folder (link on the right).

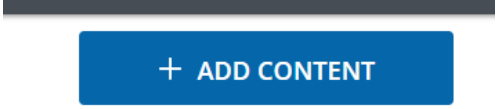

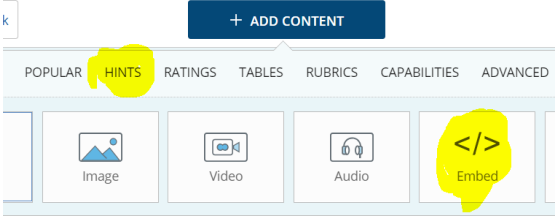

You'll have to log in with your University username and password.

<https://derby.cloud.panopto.eu/Panopto/Pages/Sessions/List.aspx#folderID=%22d50bc3f8-8665-4237-8477-a900009e450b%22&sortColumn=0&sortAscending=true>

2 Click on the video you want to share. It will play.

Copy the URL from the browser address bar

<p>3 Navigate to your asset in PebblePad.</p> <p>This will probably be the Workbook portfolio that students are going to complete.</p>	<p>https://PebblePad.co.uk</p>
<p>4 Click on + Add Content</p>	
<p>5 Click on Hints > Embed</p>	
<p>6 Paste the URL from step 2 into the box.</p>	<p>To embed a service, copy the embed code into the box below.</p> <p><input type="text" value="https://derby.cloud.panopto.eu/Panopto/Pages/Viewer.aspx?id=71d9c3f7-5"/> <input type="button" value="OK"/></p> <p>PebblePad supports the following services</p> <p>      </p>
<p>7 Click OK. The link is now created.</p>	<p><input type="text" value="9c3f7-5"/> <input type="button" value="OK"/></p>
